Experience

African School of Economics

Comms Assistant

Arconville, BJ

Oct 2023 – Feb 2025

- Led and managed a dedicated team to enhance student engagement through effective communication strategies.
- Oversaw the university's social media platforms, increasing the follower base and online visibility.
- Organized and executed a variety of successful campus events, fostering a vibrant and inclusive community.
- Collaborated closely with the Student Council to address student concerns and implement initiatives.

Audirex - Bénin

Intern

Cotonou, BJ

April – June 2024

- Utilized Excel to maintain organized and accessible records of invoices and financial transactions.
- Accurately imputed accounting documents to ensure financial data integrity.
- Performed bank reconciliations to identify and resolve discrepancies.
- Assisted in audit processes, providing necessary documentation and explanations.

Leadership & Activities

iSheero

Hackathon / Bootcamp

Cotonou, BJ

May 2024 & Sept 2024

- **AI Hackathon:** As part of a five-person team, I contributed to the development of a Stable Diffusion chatbot that offers speech-to-image and text-to-image generation capabilities for local food in Benin, and created a compelling business value proposition.
- **Africa Tech Up Tour Bootcamp:** After four months of ML training, I played a key role in developing and presenting a facial recognition solution using the Deep Face model with data synchronization to potential investors during this intensive five-day challenge.
